## SUMMARY OF ACTIVITIES

The project is designed to reach these objectives through the following activities:

- Expand and enhance formal schools and alternative learning opportunities, including vocational education for targeted children;
- Strengthen educational services through teacher training, curriculum improvement, and infrastructure repairs;
- Provide educational support services to help children succeed and stay in school, including tutoring and mentoring, provision of school supplies, and support to community libraries;
- Offer livelihood support and social protection programs to working and at-risk children and targeted household members that will alleviate the root causes of child labor by increasing agricultural productivity and promoting new agricultural options, diversifying income through non-agricultural activities, and linking to financial services and social protection programs;
- Provide technical support and capacity-building initiatives to national, provincial, district, and local governmental institutions to improve policies, legislation, and service delivery;
- Raise awareness on child labor and the importance of education through interactive and interpersonal awareness-raising, mass mobilization, and private sector engagement; and
- Conduct research on topics such as child domestic service, impact of adult migration on child well-being, and land rights and child labor.
- As of September 30, 2013, the project has provided education services to 1,192 children engaged in or at-risk of entering child labor and 222 households received livelihood services.
